What is the Booth Decoration Display

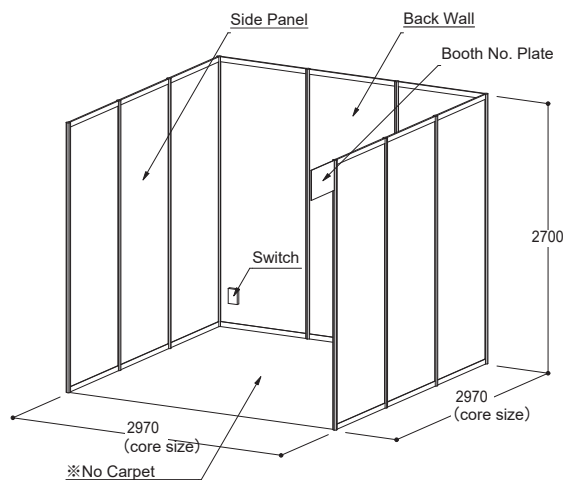

The term "Booth Decoration display" refers to a set of booth decorations, rental equipment, electrical work, etc. necessary for booth decoration and exhibition without the need for in-house construction and decoration. This exhibition uses the Octanorm system, a reusable system of leasing components. The basic plan includes a parapet, company name sign, carpet, reception set, and lighting. Optional plans are also available that add display stands, shelves, and display lighting. This brochure shows a typical assembly example.

Standard booth specifications (1 booth)

If decoration Plan is NOT ordered

Booth specs to be received on move-in day

※For corner booths, side panels will not be attached to the aisle side.

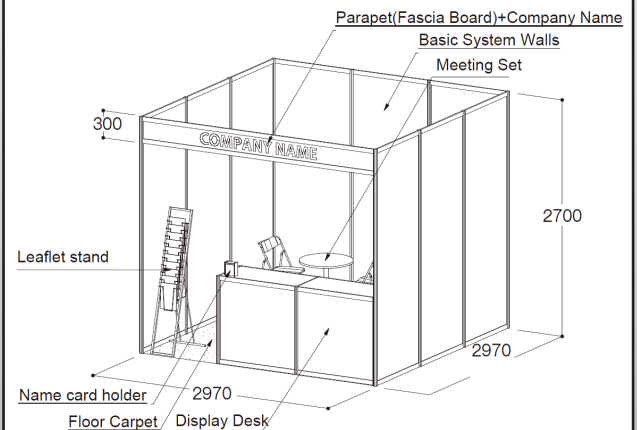

Booth Decoration Plan (1 booth)

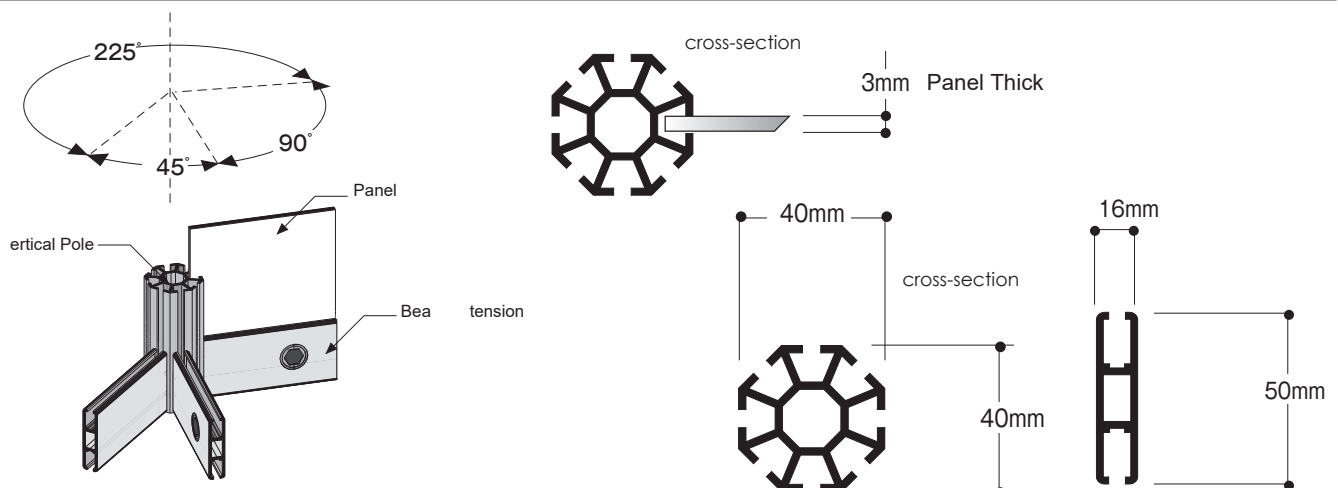

If you apply for a Booth Decoration Plan

Booth specifications to be received on move-in day

※Corner booths will not have side panels on the aisle side, but will have a parapet (without a company name sign).
